

Regular Maintenance

Wipe with dry cloth to remove surface dust. Do not use water, polish, or leather cleansers.

**General Recommendations**

Treat stains promptly. The longer a stain remains on the textile, the more difficult it will be to remove. A professional cleaning service is recommended.

Never rub a stain with force or pressure as it could cause the stain to penetrate more quickly.

Keep away from direct sunlight and heating vents as sunlight can cause the leather to lighten and heat can cause the leather to dry out.

Never use cleaning solvents, furniture polish, oil, varnish, abrasive cleaners, ammonia, or soap with a detergent base.

Note

The information above is a guide to help in the maintenance of Maharam leather. Maharam can neither guarantee, nor take responsibility for specific results.

Under no circumstances shall Maharam be liable for any incidental, consequential, or other damage resulting from negligence, misuse, mishandling, or exposure of any chemicals used in connection with maintenance. Information relating to chemicals/cleaning solvents, environmental use, and human exposure should be reviewed with appropriate suppliers. All label instructions on their use and precautions should be followed.
